Subcontractors on: NASA SEWP, RS 3, ITES 3

OUR EXPERIENCE

Department of Veteran Affairs

With a strong in-house technical team, experience in software sustainment & customization, and detailed understanding of users' needs, SRR solved in three months issues plaguing the VA in several previous contracts' periods. SRR improved users experience through training development templates, section 508 compliance review features, better look and feel, new support services, greater data integration, and more effective workflows and collaboration. SRR provided Instructional designer training development, 508 support, help desk support and technology support services.

Naval Air Training Command

The Naval Air Training Command mission is to train the world's finest combat quality aviation professionals. For this goal they use the Training Integration Management System (TIMS), a complex system of systems built with different technologies. Some modules are more than a decade old and were incompatible with each other. SRR provided technical business solutions selected against services from a large integrator. SRR solution modernized mission critical systems and increased customers satisfaction in multiple geographies, improved the efficiency and effectiveness of the daily operations, seamless transitioned from a large integrator, and saved millions of dollars.

Naval School Explosive Ordnance Disposal

NAVSCOLEOD conducts EOD training for all branches of the military including international students. SRR provided Supply Logistics/ Materiel Management Support, Range Safety / Scheduler Administrative Support. We performed inspections, record findings and maintained databases. Our Heavy Equipment Mechanic/Operator Support include tasks such as maintain, repair and overhaul complex major components and systems. We also interpreted and applied manufacturers repair manuals, technical specifications, schematics, diagnostic codes, and environmental & safety manuals.

US Army – Southern Command (SOUTHCOM)

SRR provided technical support to convert the following existing automated workflows from un-supported legacy systems to the Service Now Platform: Personnel On and Off Boarding applications (In-processing – Human Resource and Security Clearances); SC HQ, JTF-GTM, JIATF-South, JTF-Bravo (6 Several Organization Types); Visit Request/Certification, and Theater Security Cooperation Management Information System Demonstration

22d Medical Group - McConnell AFB, Kansas

SRR provided Industrial Hygiene (IH)/Occupational Health (OH) support including plan and review evaluations of workplace operations involving potentially hazardous conditions that may affect employee health. We conducted assessments of work center operations for potential chemical, physical, and biological hazards, provided quality assurance/quality control (QA/QC) on IH air sampling, determined appropriate sampling methods, completed air sampling calculations, and conducted health risk assessments based on the occupational hazard. SRR advised workplace supervisors on control measures and recommended changes in work procedures necessary to protect worker health and comply with Federal regulations, such as personnel protective equipment, administrative controls and engineering controls.

U.S. Army Medical Department Center and School

SRR provided all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and other items and non-personal services necessary to perform Equipment Specialist Precision Instrumentation and Scientific Equipment (PI&SE) Analyst services. SRR assisted with the preparation of capability requirements documents in accordance with Army and TRADOC Regulations involving Concept Development, Capabilities Determination, and Capabilities Integration, the Joint Capabilities Directorate Development system and guidance from RDD and MMS leadership.

Navy Medicine Training Support Center

Navy Medicine Training Support Center (NMTSC) supports the Navy Medicine Education and Training Command (NMETC). NMTSC developed a system for NMETC to be used in a variety of tasks including tracking corpsmen as they are trained as medical technicians. SRR provided websites maintenance support, LAN-based customer support for hardware and software problems, and SharePoint Support. We developed workflows, delivered training for users and administrators, supported software releases, designed Business Intelligence dashboards, and develop custom web parts.

US Army– Southern Command (SOUTHCOM)

SRR provided all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and other items and non-personal services necessary to perform Development, Procurement Analyst services, and Financial Analyst services. SRR assisted in Procurement and acquisition contracting services pre-award packages and developed using IAW Federal Acquisition Regulations (FAR), Department of Defense Federal Acquisition Regulation (DFARS) and all other federal acquisition policies and directives and laws. SRR provided financial analysis support performing cost formulation work involving preparation of detailed analyses of annual and/or multi-year procurement estimates for assigned organizations/programs into a consolidated report.

US Air Force – Langley Air Force Base 633d Communications Squadron

SRR provides all labor, supervision, tools and equipment necessary to provide Project Manager (PM) and Network Engineering (NE) support for requirements assigned to SRR by the 633d Communications Squadron. SRR provides services and support for all projects in support of the 633d Communications Squadron Plans and Resources Flight Chief (633 CS/SCX) or designee. SRR also provides Quality Control surveillance of all assigned projects and all other assigned duties according to the Performance Work Statement (PWS), Air Force Instructions (AFIs), regulations, established guidance and contract law.

US Army– Southern Command (SOUTHCOM)

SRR provided all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and other items and non-personal services necessary to assist USSOUTHCOM J7/9 Civil Affairs Planning Division (CAPD) with design, development implementation and execution of Gender Integration projects and WPS initiatives in the USSOUTHCOM AOR.

Broward County

Cloud and mobile first were some of the conditions Broward County had for their fleet management immediate need. They required a GPS Vehicle Tracking Solution and wanted to implement a new system quickly. Our hosted GPS tracking platform is in the cloud and mobile first. SSR configured dashboards, reports types and frequency, and integrated the GPS Vehicle Tracking System with Broward County ERP software.

Palm Beach County

SRR supported Palm Beach County FOR As-Needed Technical Support. Onsite work orders determined on a case by case basis. SRR made sure that the team will possess the experience and expertise in the As-Needed Technical Support Areas as per the requirement of the task order. Database Support Applications Development Modeling Data Strategy & Management Quality Assurance Customer Support Network Management Operations Telecommunications Data Management

NASA

SRR provided NASA with Source Code Review services and review benchmarks and best practices for Java models of this type and provide suggestions and recommendations for improvement, particularly in the area of speed of code execution, clarity and structure of code, and use of classes for clarify and execution in support of the Air Carrier Behavior ABM effort under Logistics Management Institute Contract.
